

Without argument we live in a world racked by pain, suffering, heartache, disease, and death. Each movement of the clock brings to us the reality that this world is not getting any better. Adding to that scenario, political uncertainty, economic instability, international unrest, and the fear of rising terrorism, the future is bleak.

It would be wonderful if we could hit a reset button and go back to a world filled with total peace. It may be difficult to imagine but there was a time when sorrow was non-existent, and social harmony was uninterrupted. This earth was once a death and disease free environment. How could something so perfect turn out so bad? What went wrong? The Bible reveals that our world was infected by sin.

A rebellion broke out in heaven through a rogue angel named Lucifer. The sin that was born in his heart resulted in the deception of one-third of heaven's angels. The war that followed resulted in the expulsion of Satan and his angels. Adam knowingly accepted the fruit of rebellion and opened the door to sin. Death passed upon the human race through Adam's transgression. However, Jesus provided a way of escape from sin. It is by accepting Him that we receive the eternal blessing of salvation. One day sin and death will be eradicated and eternal peace will forever reign. As we prepare for that sin-free world of eternal joy, remember that *Jesus is the only way out*.
